

Benefits

Time:

Eliminate time wasted (downtime) by quickly showing your customers their mat and frame selections.

Space:

Reduce the space in your retail area by eliminating the need to display hundreds of mat and frame samples.

Money:

Frame Vision is a low cost alternative when compared to other computer programs with similar features.

**ALL
YOU
NEED
IS YOUR
IMAGINATION**

As easy as 1 2 3

Finally, an affordable, easy to use web application that allows your customers to visualize their finished framed artwork.

Your customer can choose from thousands of picture frame and matboard combinations and view their completed job.

Changes to mats, mouldings, and sizes are made easier with the click of a mouse. No more fumbling through frame and mat samples, saving you time and space. Frame Vision is readily accessible from any computer with internet access.

No more buyer's remorse when you use Frame Vision. This web-based application allows your customer to preview their choices before they buy.

1

Step 1

Submit a digital image of the artwork to Frame Vision

2

Step 2

Pick and choose from a multitude of picture frame and matting combinations ... limited only by your imagination.

3

Step 3

View the on screen preview of the finished framed art.
